

**Availability for Call concerning sampling associated with Warrants for drilling flowback fluid**

**Troy Jordan** to: Cynthia Caporale, Fred Foreman, Gerard Crutchley, Jose Reyna

10/12/2011 12:53 PM

Cc: Mike Mahoney

---

I've talked to most of you separately about sampling that will need to be conducted in conjunction with administrative warrants that are being prepared by R3 concerning impoundments that contain flowback fluids and produced fluids from Marcellus Shale gas production.

I'd like to convene a conference call so that we may finalize some of the details so that everyone is on the same page. I'd like to do this ASAP so please let me know your availability. I'll also take a look at your calendars and see if I can make some suggestions.

As things stand at this moment, the inspections are scheduled to begin as early as Monday October 17th so if it is possible to do this today that would be great. I know Mike is tied up but if we can get everyone else I think we should at least get started.

Thanks and Sorry this is so rushed!  
Troy
